â,		1700 hours and had a	staff of approximately 200. During the remaining elp consisted of askeleton crew.			

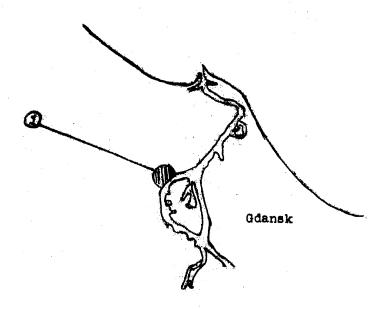

- 4. This factory had an average of two or three accidents a month that were caused by exploding boiling oil or fats. The victims were often badly burned which would usually prove fatal.
- 5. The director of this factory was a Soviet woman, (fnu) CZERWINSKI, who was a chemical engineer and was disliked with a passion by all employees. She was sent to this factory at the end of 1950 or beginning of 1951.
